Relevant Experience

Senior Frontend Developer

Apr 2023 – Nov 2023

Frontend Developer

Sept 2021 – Apr 2023

Shift7 Digital | Remote

- Contributed to the development of high-quality, robust production code for multiple client websites.
- Leveraged modern frontend frameworks, including Salesforce Lightning Web Components and React, to build dynamic and interactive user interfaces.
- Developed and maintained a diverse array of client frontend architectures, ensuring scalability, performance, and long-term maintainability.
- Collaborated with cross-functional teams, including product managers, designers, and engineers, to transform creative concepts into optimized digital experiences within agile two-week sprint cycles.
- Led a team of three frontend developers in successfully completing a major client project, overseeing the seamless rollout of a comprehensive UI overhaul.
- Independently drove frontend development to integrate a Q&A and events platform into the client's Bloomreach XM environment.

Frontend Developer

Oct 2020 – Sept 2021

iGrad | Remote

- Developed reusable, high-quality UI components seamlessly integrated into the project's design system.
- Engineered and optimized key features for iGrad's web applications using React, SASS, Material-UI, Bootstrap, Styled-Components, Telerik, and other modern tools.
- Collaborated with the design teams to create responsive, user-friendly interfaces for stakeholders.
